■ What is the Apostille?

1. The Hague Convention Abolishing the Requirement of Legalization for Foreign Public Documents is an international treaty drafted by the Hague Conference on Private International Law and has been effective in Korea since July 7, 2014.
2. It specifies the modalities through which a document issued in one of the signatory countries can be certified for legal purposes in all the other signatory states.
3. Such a certification that is called the Apostille is an international certification comparable to a notarization in domestic law, and normally supplements a local notarization of the document.
